

AB 1305 DISCLOSURE

Reyes Coca-Cola Bottling, L.L.C. is committed to continuously lessening its impact on the environment. As part of our efforts to ensure a sustainable future, we have set ambitious climate goals aimed at reducing our greenhouse gas (GHG) emissions and overall environmental footprint.

Transparency is an essential part of Reyes Coca-Cola Bottling's efforts. To that end, we use internationally accepted, science-based standards in setting and evaluating progress toward its specific goals, including the Greenhouse Gas Protocol, and have engaged reputable independent third-party verifiers such as Guidehouse, Inc. to ensure that our goals are realistic, our data is accurate, and our progress is real.

For more information on Reyes Coca-Cola Bottling's climate goals and additional supporting data regarding our progress, please see our annual Corporate Social Responsibility report.

SIGNIFICANT EMISSIONS REDUCTIONS CLAIMS

Reyes Coca-Cola Bottling, L.L.C. has made the following emissions reductions claims:

- In 2023, Reyes Coca-Cola Bottling L.L.C. had reduced its combine Scope 1 & 2 greenhouse gas emissions by 7.2% vs. 2022, and by 12.5% vs. the baseline year of 2021.

Reyes Coca-Cola Bottling, L.L.C. has reduced its overall annual GHG emissions by 12.5% against a 2021 baseline through a number of strategies, including:

- Replacement of carbon dioxide with nitrogen for non-ingredient applications in its manufacturing processes.
- Adoption of lower-energy manufacturing methods such as ambient filling.
- Increased use of biofuels in its fleet.
- Implementation of energy-saving technologies such as LED lighting, HVAC controls, and improved insulation in its manufacturing and distribution centers.

Reyes Coca-Cola Bottling, L.L.C. has worked with Guidehouse, Inc. to validate these reductions. Emissions are compared against a 2021 baseline, and Reyes Coca-Cola Bottling, L.L.C. hired Guidehouse, Inc. to assist in gathering, calculating, and measuring its Scopes 1 & 2 emissions data in accordance with the [GHG Protocol Corporate Account and Reporting Standard](#). Guidehouse, Inc. audits this data yearly, and Reyes Coca-Cola Bottling, L.L.C. performs its own internal audit of emissions data on a quarterly basis.

For more information on Reyes Coca-Cola Bottling L.L.C.'s emissions reduction goals and additional supporting data regarding our progress, please see our [Corporate Social Responsibility Report \(pages 26-27\)](#).
